DETAILED ACTION

Priority

1. Acknowledgment is made of applicant's claim for foreign priority under 35 U.S.C. 119(a)-(d). The certified copy has been filed in parent Application No. 09/714,189, filed on 11/17/2000.

Information Disclosure Statement

2. The information disclosure statement (IDS) submitted on 12/24/2003 has being considered by the examiner.

Double Patenting

3. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double

patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

4. Claims 1, 4-8 and 11-14 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-2, 5, 10, 14-15, 17 and 19-21 of U.S. Patent No. 6,712,476 B1.

Although the conflicting claims are not identical, they are not patentably distinct from each other because:

- a. Claim 1 reads on claims 1, 2 and 10.
- b. Claim 4 reads on claim 14.
- c. Claim 5 reads on claim 15.
- d. Claim 6 and 8 read on claim 17.
- e. Claim 7 reads on claim 5.
- f. Claim 11 reads on claim 19.
- g. Claim 12 reads on claim 20.
- h. Claim 13 reads on claim 17.
- i. Claim 14 reads on claim 21.

Allowable Subject Matter

5. Claims 2-3 and 9-10 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

6. The following is a statement of reasons for the indication of allowable subject matter:

A projector and the method for said projector wherein the processing section controls the electric power supply circuit so as to set the hardware circuit in either one of a sleep state and a standby state according to the second instruction; further comprising a light source as the hardware circuit configured to emit light to illuminate the electro-optic device, the electro-optic device forming the image light by modulating the light from the light source, wherein the processing section controls the electric power supply circuit so as to determine supply of electric power for the light source according to the second instruction. Each of said recited elements in combination as claimed cannot be made inherent or obvious by the prior art of record.

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Karasawa et al. (US 2002/0122075 A1) discloses the creation of image designation file and reproduction of image using the same.
